# Point 2 Zavod Imeni Sverdlova (Chemical Plant)

This plant and a large workers! settlement are located about 1½ - 2 kilometers northwest of Dzerzhinsk. No German specialists were known to have worked there. The zavod's number and type of production is unknown to me. The workers' settlement with about 2000 residents, as well as the plant itself, belong to the Dzerzhinsk municipal system. A large Dom Kulturi (House of Culture) is located in the vicinity of the plant. Many of the workers live under poor and primitive conditions in the settlement's old and dilapidated wooden dwellings. The Sverdlova plant can be reached from Dzerzhinsk by streetcar and commuter trains. The latter run from the railroad station indicated on my sketch by the Roman Nov-I. See point I, Para 1b.

## Point 3 Zavod Imeni Kalinina (Chemical Plant)

This plant is located about 1 - 12 kilometers east of Dzerzhinsk. No German specialists worked there. This plant was known to supply all other installations in the Dzerzhinsk area with hydrogen. It was also rumored that the plant was producing nitrogen. A permanent female forced labor camp is located near this plant.

### Point 4 Zavod No. 96

. .

50X1

#### Point 5 Zavod OKA (Chemical Plant)

This plant is located approximately 3 - 4 kilometers east of Dzerzhinsk. A steam and power plant is located in the vicinity of this plant. The ASINGER group, transferred from Moscow to Dzerzhinsk in 1948, worked at this plant.

50X1

## Point 6 Zavod Rulon (Chemical Plant)

This is one of the largest plants in the Dzerzhinsk area. It is located about 6 - 7 kilometers east of Dzerzhinsk proper. No German specialists worked there. Type of production unknown. The streetcar line servicing all the plants and settlements located along its route terminates at this point. The workers' settlement in this area consists of four-story high housing blocks.

## Point 7 Petroleum Refinery

This refinery belongs to the plant OKA. Many towerlike vertical tanks could be observed in this area.

CONFIDENTIAL

#### CONFIDENTIAL

50X1

# Point 6 Workers Settlement See point 2 above.

## Point 9 Lake Svyatove

Lake and old village located on the road to Zholnino (point 10).

## Point 10 Village Zholnino

Former land-owner's estate, now a Soviet kolkhoz. A typical old Soviet locality; presents a very poor and neglected appearance.

### Point 11 Chernorekhenskiye Dvoriki

This village is located along the Moscow -- Gorkiy highway. I have no information on this locality.

## Point 12 Dudenovo

į.

This large village is inhabited by many fishermen who supply the Dzerzhinsk markets with their catch. This village is surrounded by well-tended fields and vegetation and presents a clean and tidy appearance. River boats from Dzerzhinsk connect this locality with the north bank of the Oka River. Many masts with electric power lines could be observed running south of this village. It was rumored that in 1950 a new airfield was established at a point south of Dudenovo. Soviet air force soldiers were frequently observed traveling from Dzerzhinsk to this village.

## Point 13 River Harbor /

50X1

A calcareous pit (deposits) is located in this area. This harbor serves as an important transportation hub for the industrial installations of the Dzerzhinsk area.

#### Point 14 Road to the Sverdlova Plant

This road is an extension of the Koltsovo Prospekt / /. The Soviet intelligentsia and Stakhanovite workers are known to reside in the one-family houses flanking this road. This road is partly paved and in poor condition.

50X1

#### Point 15 Road to Gorkiy

50X1

#### Point 16 Main Highway, Moscow-Dzerzhinsk-Gorkiy

This highway is in good condition, suitable for light and heavy traffic. It belongs to the system of the Soviet main road arteries.
